

## Levels of Samadhi

From *The Center of the Cyclone* (1972) by Dr. John Lilly, M.D. Gurdjieff Vibration

<u>Level</u>	<u>States of Consciousness</u>	<u>Samadhi</u>	<u>Description</u>
3	+ 3	Dharma-Megha Samadhi	Making the Ma'hdi. Classical Satori. Fusion with universal mind, union with God; being one with the creators of energy from the void, in the Ma'h spiritual center above the head.
6	+ 6	Sasmita - nir bija	Making the Buddha. A point source of consciousness, energy, light, and love. Point of consciousness, astral travel, traveling clairvoyance, traveling clairaudience, fusion with other entities in time. In the mental center in the head.
12	+12	Sananda	Blissful state, making the Christ, the <a href="#">green qutub</a> , realization of baraka, the reception of divine grace, cosmic love, cosmic energy, heightened bodily awareness, highest function of bodily and planetside consciousness, being in love, being in a positive LSD energy state. In the 0th emotional center in the chest.
24	+24	Vicara	The level of professional Satori or of basic Satori. All the needed programs are in the unconscious of the biocomputer, operating smoothly, the self is lost in pleasurable activities that one knows best and like to do. In the Kath moving center in the lower belly.
48	+/-48	Vitarka	The neutral biocomputer state, the state for the absorbtion and the transmission of new ideas; for the reception and transmission of new data and new programs; doing teaching and learning with maximum facilitation, neither in a positive of a negative state, neutral. On the earth.
96	-24**	N/A	Negative state; pain, guilt fear, doing what one has to do but in a state of pain, guilt, fear; the state of

			slightly too much alcohol; of a small amount of opium, of the first stages of lack of sleep.
192	-12	N/A	Extremely negative body state where one is still in the body, as in an intense migraine attack, in which one's own consciousness is shrunk down and inhibited and the awareness is only in the present in one's pain. The pain is such that one cannot work or do one's usual duties. A limitation is placed upon one's self, one is isolated, a bad inner state.
384	-6	N/A	Similar to +6 except that it is extremely negative. A purgatory-like situation in which one is only a point source of consciousness and energy; fear, pain, guilt in the extreme; meaninglessness prominent.
768	-3	N/A	Like +3 in that one is fused with other entities throughout the universe but these are all bad and one's self is bad and meaningless. This is the quintessence of evil, the deepest hell of which one can conceive. This can be an extremely high energy state lasting eternally, though by planetside clock one is there only for a few minutes. No hope in this state. No hope of escape from it. One is there forever.
